

December 2005

Dear Mr. Stefano Mura
/ Project Manager of Fluidel

At the end of year 2005, I hope you have achieved what you planned for at the beginning of the year.

Thanks to you and your company, I made it successful of the South Pars Gas Field Development Phases 4 & 5 to complete on time and contractual requirement.

It is valued as world record in its period of construction - 24 months Gas-In and 36 months overall completion. In addition, since its operation, it is producing the intended product to bring national wealth to Iran.

I would say again that you are one of those who played a great role in making such a monumental project and you and your company will be mentioned whenever they put this project on their dialogue.

I am looking forward to having a good opportunity to work together again with you and I wish you good health and your company prosperity.

Happy New Year.
